

Saketh Kusuma

Hyderabad, India | LinkedIn | LeetCode | Portfolio

Professional Summary

Computer Science graduate with hands-on experience in building and deploying web applications using **Java, JavaScript, React.js, Node.js, Express.js**, and **MongoDB**. Strong knowledge of **Data Structures and Algorithms, Object-Oriented Programming, SQL, REST APIs, Git**, and **AWS EC2**. Proven ability to solve problems, improve user experience, and develop scalable software solutions. Experienced in creating reusable components and maintaining clean, efficient code across production-ready applications. Skilled at collaborating in teams to deliver responsive interfaces and reliable features.

Skills

Languages: Java, JavaScript, TypeScript, SQL, HTML5, CSS3

Core Java: Object-Oriented Programming (OOP), Collections Framework, Java 8+

Computer Science: Data Structures & Algorithms

Frontend: React.js, Next.js, Redux, Redux Toolkit, Tailwind CSS, Shadcn UI, Framer Motion

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, MongoDB Atlas, Mongoose, PostgreSQL, Firebase

Cloud & DevOps: AWS EC2, Docker, Git, GitHub

Tools & Practices: Postman, Agile Scrum, GitHub Copilot, AI/LLM Integration, Prompt Engineering

Soft Skills: Problem-Solving, Communication, Teamwork, Collaboration, Adaptability, Attention to Detail

Experience

Akdenar Private Limited

June 2025 – October 2025

Frontend Developer Intern

- Engineered 10+ reusable **React** components and a **Shadcn UI** library for a production e-commerce platform using **Tailwind CSS**, reducing UI development time by nearly 30%.
- Implemented **Redux Toolkit** for centralized state management, reducing unnecessary re-renders by 40% and improving responsiveness on product listing pages.
- Integrated **REST APIs** and added **Framer Motion** animations to improve interaction smoothness and reduce perceived page-load delays by 20%.
- Collaborated in a production codebase using **Git**, **GitHub**, and **Agile (Scrum)** practices, improving team efficiency by an estimated 10%.
- Debugged and resolved UI issues across multiple screens, improving layout consistency and reducing visual defects in the production interface.
- Optimized reusable component structure to support faster feature rollout and cleaner code maintenance across the application.

Projects

Wonder World Adventure Hub

Tech Stack: React, Tailwind CSS, Node.js, Express.js, AI Chatbot, OpenRouter LLM Integration

- Developed a full-stack **React** and **Node.js** web application for a theme park with a responsive interface and real-time visitor query handling.
- Built a secure **REST API** backend with **Express.js** to manage chatbot communication and protect routes from unauthorized access.
- Integrated an AI-powered chatbot using **LLM APIs** and prompt engineering to keep responses relevant to park-related queries.
- Structured the interface to deliver a smoother browsing experience across desktop and mobile screens.

Link Devs

Tech Stack: Node.js, Express.js, MongoDB Atlas, React, Tailwind CSS, AWS EC2

- Built a developer matchmaking platform using **React** and **Node.js/Express.js** with JWT-secured **REST APIs** for registration, authentication, and profile management.
- Designed a skill-based matching system using **MongoDB** queries to filter and rank developer profiles by compatibility.
- Deployed the application on **AWS EC2** with **PM2** and configured environment variables for stable production hosting.
- Improved application usability by delivering real-time match results through an efficient frontend workflow.

Education

Holy Mary Institute of Technology and Science, Hyderabad

2022 – 2026

B.Tech in Computer Science Engineering (Data Science)

Narayana Junior College, Hyderabad

2020 – 2022

Intermediate in MPC

Bhashyam High School, Hyderabad

2019 – 2020

SSC
